SITUATION SUMMARY

National News – Significant Events

2 Air France flights from U.S. to Paris diverted because of bomb threats

(CNN) Two Air France flights headed from the United States to Paris were diverted because of bomb threats, officials said. Both flights landed safely Tuesday night, and have now been searched and given the all-clear by Canadian and U.S. authorities. Flight 65, in route from Los Angeles to Paris, was diverted to Salt Lake City after a bomb threat was called in from the ground, a U.S. government official said. The official did not know whether anyone was arrested and was not aware of any unruly passengers on board. Shortly afterward, Air France Flight 55 from Washington's Dulles International Airport to Charles de Gaulle Airport in Paris was diverted to an airport in Halifax, Nova Scotia -- also because of a bomb threat, a government source said. The source did not know whether the same person called in both threats. Air France Flight 55 lands at Halifax Stanfield International Airport in Canada. "Several law enforcement agencies are working ... to determine the nature of the threats which caused the aircraft to divert," FBI Special Agent Todd Palmer of the Salt Lake City division said. No U.S. military aircraft were scrambled in either incident, NORAD spokesman Preston Schlachter said. "Diversion of flights are the most draconian response to a bomb threat," CNN national security analyst Juliette Kayyem said. Officers searched the plane that landed in Salt Lake City and rendered it safe, Salt Lake City Airport Police Chief Craig Vargo said. He said airport officials have turned the plane back over to Air France, which was preparing the plane for departure.

International News – Significant Events

2 terrorist suspects killed, others held in raid in Saint-Denis, officials say

(CNN) Gunfire and explosions shook the northern Paris suburb of Saint-Denis early Wednesday as heavily armed police stormed a building where suspects linked to Friday's deadly terrorist attacks were believed to be holed up. Police blocked off roads before dawn Wednesday and told residents to stay inside in Saint-Denis, a diverse, working-class area that is home to the Stade de France sports stadium where three suicide bombings took place Friday. The situation has been developing quickly in recent hours, but as of late morning, Paris time, two terrorist suspects have been declared dead. One of them was a woman who blew herself up with a suicide belt, according to authorities. Seven other people were arrested, including three men who were removed from an apartment at the heart of the raid, the Paris prosecutor's office said. Five police officers were lightly wounded during the operation. The identities of the dead and detained suspects wasn't immediately clear. It was also uncertain how many people might still be inside the apartment, which is on a street just a few blocks from the Basilica Cathedral of Saint Denis, where many French monarchs' remains are entombed. A senior Belgian counterterrorism official told CNN that Abdelhamid Abaaoud, the suspected ringleader of the Paris attacks, was one of the potential targets of the police raid. But the official cautioned that French and Belgian authorities weren't certain that Abaaoud, a Belgian ISIS member who was widely believed to have been in Syria recently, was at the location when they launched the raid.

SITUATION SUMMARY

Cal EOC Incident – 2014 Drought

- SOC / Inland REOC remains activated in support of 2014 Drought

Weather of Concern.

- No significant watches or warnings are in effect.

Active Weather Warnings, Watches and Advisories by County:

http://www.wrh.noaa.gov/sto/brief/www_bc_cal.php

WEATHER

WEATHER SYNOPSIS BY REGION:

NORTHERN CALIFORNIA AND CENTRAL COASTAL AREAS:

Eureka Weather:

Rain showers will come to an end this morning. Another cold front will approach the area on Thursday with increasing rain chances mainly north of Cape Mendocino. Temperatures will be near to slightly above normal through the weekend.

Medford Weather:

The latest shortwave trough moving through the area will provide broad onshore flow across the Pacific Northwest. This weather pattern will bring a round of moderate to strong winds across the mountains and portions of the east side this morning along with some precipitation.

Reno Weather:

Dry weather, light valley winds and slightly above average daytime temperatures will continue through early next week. The only exception will be near the Oregon border, where a few lightShowers are possible this morning, and Thursday afternoon and night. Next week starting Tuesday a stronger low pressure may bring a cooling trend and increased chances of rain and snow.

San Francisco Weather:

Continued dry weather conditions along with a gradual warming trend will persist through late week as high pressure builds over the Eastern Pacific. Temperatures cool slightly this weekend into early next week as a mostly dry weather system drops through the region. Wet weather is forecast to return to our region starting on Tuesday.

WEATHER

WEATHER SYNOPSIS BY REGION:

CENTRAL CALIFORNIA AND SOUTHERN SAN JOAQUIN VALLEY:

Sacramento Weather:

Dry weather expected for the area for the remainder of the week except for some light precipitation possible at times over the far northern portion of the state. Daytime temperatures will be a little above normal..

Hanford Weather:

Mainly clear skies and slight warming trend are expected for the remainder of the week as high pressure continues to move in. Patchy fog, locally dense, is possible in the San Joaquin Valley during the late evening through the morning commute hours.

SOUTHERN CALIFORNIA:

Los Angeles Weather:

Light offshore breezes and above normal temperatures are expected through the weekend. Cooling will begin Sunday into early next week; as a weak trough moves into Northern California.

Extreme Southwestern California including Orange, San Diego, Western Riverside and Southwestern San Bernardino Counties:

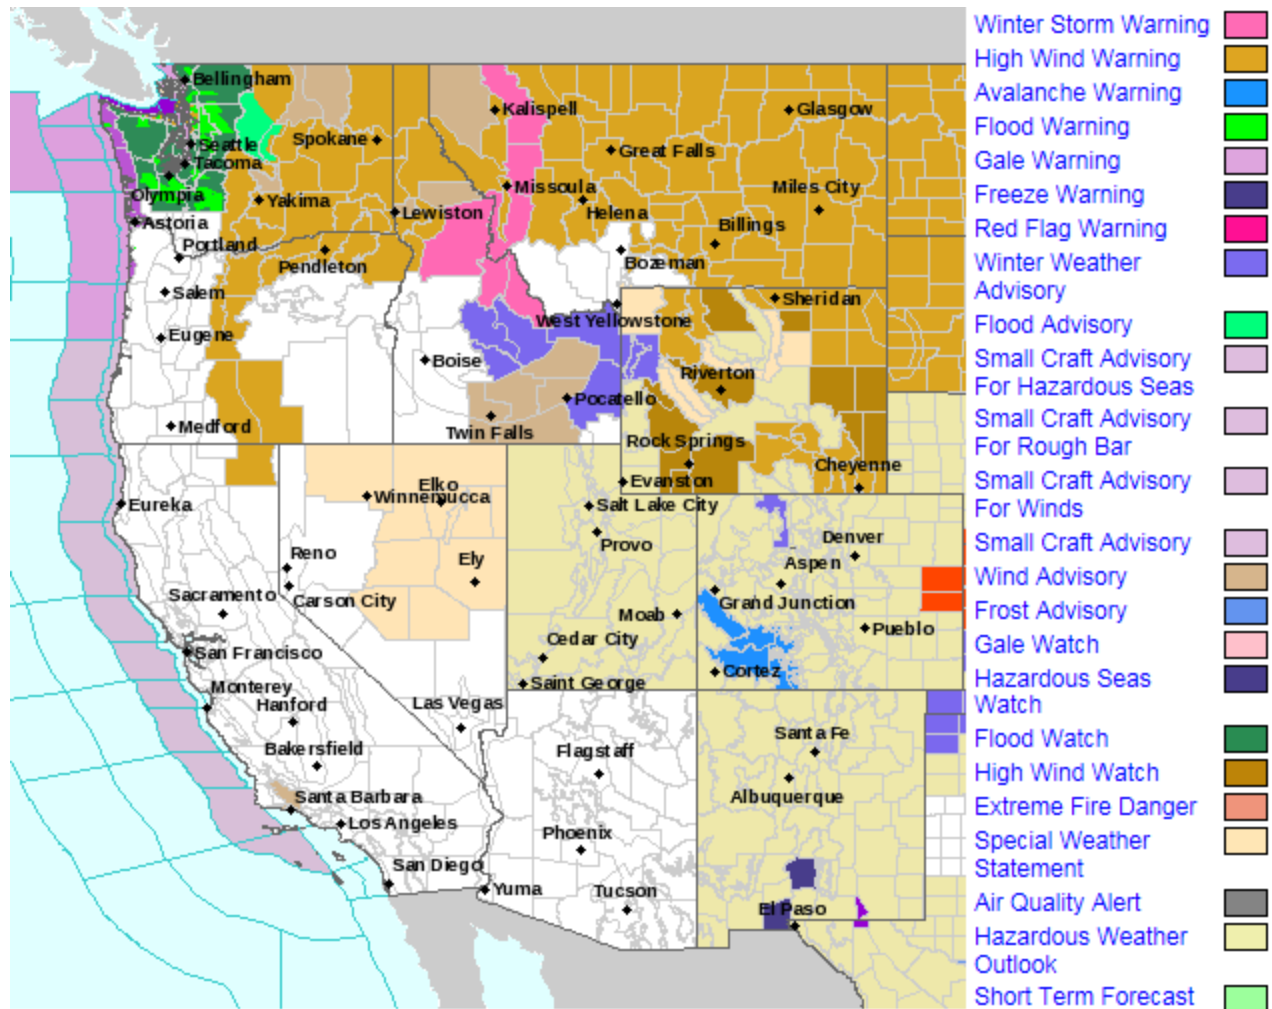

High pressure aloft and weak offshore flow will bring fair and warmer weather for the rest of this week, although nights will still be cool in wind-sheltered locations. Gusty winds from the Northeast will occur mainly in the foothills. High pressure will weaken early next week and bring cooler weather and a storm system with precipitation is possible by the middle of next week.

Southeast California Weather:

A gradual warming trend will commence across the region with temperatures eventually rising back above normal through the upcoming weekend. Another pacific weather system will bring more clouds with cooler temperatures and slight precipitation chances back to our forecast area by next Tuesday.

CAL OES Recovery

Southern California Flooding

- On November 17, 2015, the U.S. Small Business Administration (SBA) declared the primary county of Los Angeles and the contiguous counties of Kern, Orange, San Bernardino, and Ventura due to recent severe rain, flooding, and debris flows. This declaration will make low interest loans available for eligible renters, homeowners, and businesses affected by the disaster.

CAL OES 2014 DROUGHT

Cal EOC Incident – 2014 Drought

- The SOC is activated in support of the Drought State of Emergency and continue to monitor the situation.
- The Governor issued Executive Order B-26-14 on 09/19/14, to streamline relief efforts for families with drinking water shortages due to drought, specifically through the California Disaster Assistance Act, to provide temporary water supplies to households without water for drinking and/or sanitation purposes.
- The Governor issued Executive Order B-29-15 on 04/01/15 which announced actions that will save water, increase enforcement to prevent wasteful water use, streamline the state's drought response and invest in new technologies to make California more drought resilient.
- CDAA 2014 Drought Fact Sheet and Frequently Asked Questions provided to Regions for reference and distribution.
- Cal OES Recovery continues to coordinate the Community Impacts Workgroup conference calls. Currently, the calls take place on alternating Wednesdays.
- Cal OES Recovery/Individual Assistance finalized an updated 2015 version of the drought brochure of programs and services for individuals, businesses, farmers, and ranchers. It has been put on the Governor's Drought webpage. State agencies may put the following link to the brochure on their webpage <http://ca.gov/drought/pdf/Drought-Assistance-Brochure-2015.pdf>
- Cal OES Regions (Inland, Coastal, Southern) collective OA drought call is facilitated by the SOC every other Monday at 1100 hours.

CAL OES 2014 DROUGHT

Cal EOC Incident – 2014 Drought

Local Emergency Proclamations:

CAL OES MISSIONS

New Cal OES Missions

- **2015-LAW-19982, 11/18/2015, 0150 hours,** The AFRCC advised of an ELT sounding off in San Bernardino County. First report of an ELT came from an overhead aircraft in the area near Ontario Airport at around 0013 Zulu. Civil Air Patrol (CAP) IC is in place.

Mission:

We protect lives and property, build capabilities, and support our communities for a resilient California.

We achieve our mission by serving the public through effective collaboration in preparing for, protecting against, responding to, recovering from, and mitigating the impacts of all hazards and threats.
